ceramic and...
CERAMIC TILES

Saudi Ceramic Company offers a wide range of glazed ceramic tiles, including wall tiles, floor tiles, swimming pool and decorative tiles in a range of sizes and designs, all manufactured to SASO (Saudi Standards, Metrology and Quality Organization) and international standards. There is also a selection of skirting and decoration tiles as well as tile accessories.

PORCELAIN TILES

Saudi Ceramic Company was the first porcelain tile producer in the Kingdom of Saudi Arabia. The product ranges include a wide selection of sizes and designs offered as either polished, glazed or solar glazed for an elegant look and long life.

SANITARY WARE

A wide collection of premium vitreous china sanitary ware is produced in a range of colours and contemporary designs. Saudi Ceramic Company complements its products with a portfolio of other bathroom furniture and accessories, including baths, shower trays, taps, ceramic soap dishes and shelves as well as towel rails, etc.
ELECTRIC WATER HEATERS

Saudi Ceramic Company electrical water heaters are manufactured to the highest possible safety standards and thanks to their quality, enamel glass-lined boilers are rust resistant. The Company produces a variety of water heaters, including solar, of different sizes and shapes to meet all circumstances.

CERAMIC ROAD MARKERS

Ceramic road markers are ideal alternative to steel road markers due to their high visibility and ease of installation. Unlike paint, they are durable in high traffic areas and bad weather conditions. The Company produces road markers in yellow or white and range of designs to meet specific traffic requirements.

BATHROOM ACCESSORIES

Saudi Ceramic Company offers a wide selection of bathroom accessories to enhance the beauty of its sanitary wares. Accessories include mirrors, mixers, baths, shower trays, toilet seats, water tanks and flushing mechanisms. Tile adhesives as well as grouts complete the range.
WE TAKE CARE
OF OUR RELATIONSHIPS

Saudi Ceramic Company is committed to customer satisfaction by offering:

- High-quality products and services
- New products and designs to meet changing customer demands
- Custom-made products
- Technical and marketing support to distributors
- Spare parts
- Efficient and prompt worldwide delivery
- Full design and after-sales support
ization, efficiency
new materials, new ideas
ALWAYS SEARCHING FOR PERFECTION

Research and Development is an integral part of Saudi Ceramic Company and works as a compass in helping determine the future direction of the business in order to meet customer needs.

The company is constantly innovating with new ideas, examining and taking advantage of new raw materials and technologies to optimise production processes and deliver unique and ground-breaking solutions to our customers.

DISTRIBUTION CHANNELS

In order to effectively serve all customer segments, Saudi Ceramic Company has developed a range of marketing and sales strategies for its various distribution channels.

SCC SHOWROOMS

Saudi Ceramic Company now has 30 showrooms, in order to showcase and exhibit various product displays and help customers make their selection. All showrooms are connected electronically with factories and warehouses to ensure customers are kept up-to-date with product availability and delivery status.

WHOLESALES CHANNEL

The role of this channel sells products to major distributors and wholesale dealers. This channel offers volume related rates. This channel also supports distributors by providing them with exclusive customized products, offers technical support, promotional materials, display systems and merchandising.

PROJECT CHANNEL

Selling products to public and private construction projects is the prime objective of this channel. Saudi Ceramic Company maintains direct business relationships with engineers, consultants, contractors and owners to provide them with sufficient product information and technical support in the form of design services.

EXPORT CHANNEL

Saudi Ceramic Company products are sold in more than 60 countries around the world, outside the Kingdom of Saudi Arabia; all Gulf Cooperation Council States, other Arab countries, Africa in addition to Russia and some European countries.
WHERE QUALITY TAKES SHAPE

Saudi Ceramic Company owns and operates state-of-the-art production facilities. The factories are located in the Second Industrial City South East of Riyadh, covering an area of one million square meters and employs more than 4000 people. Saudi Ceramic Company has more than 11 factories:

- Four Tile factories
- Two Sanitary Ware factory
- Two Electric Water Heater factories
- Two Frit plants
- One multi-mineral crushing and milling plant
- One Plastic Products plant
- One Red Bricks factory

Due to the extensive demand locally and internationally, Saudi Ceramic Company has adopted an ambitious strategy in order to keep on increasing its production capacity of its tiles to reach 65 million sqm and the production of sanitary wares to reach 3.5 million pieces before the end of 2016. In addition, the company has also established new technologically advanced Frit and Grinding factories with a production capacity of 33,000 tons per year, sufficient to meet anticipated demands.

**OPPORTUNITIES**

Saudi Ceramic Company is constantly in search for promising opportunities through methodical analysis and market research.

**COMMUNICATION**

Saudi Ceramic Company is interconnected via various communication means that allow direct and clear movement of documented information, constructive ideas, useful suggestions, problems and obstacles for a definite appraisal and address.
better careers and prospects
WE PLAY AN EFFECTIVE ROLE IN SUPPORTING COMMUNITIES AND THE ENVIRONMENT

One of the most important social issues that Saudi Ceramic Company is undertaking is the Saudization of its workforce. This program aims at attracting and retaining Saudi talents, thereby offering them better prospects with the cooperation of various government institutions such as the Saudi Ministry of Labor and Human Resources Development Fund. The company also plays an effective role in supporting local communities and local charitable organizations. Moreover, Saudi Ceramic Company is involved in water conservation initiatives by producing water-saving toilets.

A study found that water-saving toilets consume from 3 to 6 liters of water per flush. It means that, if all toilets in Saudi Arabia were replaced with the new water-saving toilets, the quantity of water saved in Saudi Arabia would amount to 300 million cubic meters every year. This is equivalent to the annual product of Al-Jubail Desalination Plant - the largest of its type in the world. For this reason, Saudi Ceramic Company has intensified its efforts to convert all of its models to be more water saving and leads the region in water conservation.
OUR MARKS OF EXCELLENCE

Quality is the prime focus at Saudi Ceramic Company and is never compromised. The company is committed to ensuring specifications of finished products, raw materials and packaging are achieved. All materials are thoroughly tested to ensure suitability and conformity. The latest techniques and skilled professionals add further to our quality guarantee.

Production line equipment and performance are constantly checked to ensure the finished products meet the highest international standards.

This commitment allows Saudi Ceramic Company to proudly display its System Certification (ISO9001) and Quality Marks on its products.

LOCAL QUALITY ACCREDITATIONS:
- ‘The King’s Award for the Ideal Factory’ won twice.
- SASO Quality Mark for all of its products.

INTERNATIONAL QUALITY ACCREDITATIONS:
- ISO-9001-2008 certificate.
- Floorscore & Indoor Advantage - GOLD certification for tiles
- CE Quality Mark
- ISO 9001: Quality Management System Certified
- Nemko Certification for Electrical Water Heaters
