03
Driver workflow definition
Status: [Done]

04
Dispatch coordination
Status: [Done]

05
Operational launch support
Status: [Done]

Fleet allocation and route readiness

Vans allocated and routes prepared for Jeddah

الخزف السعودي
Saudi Ceramics

[1]
Vans allocated to Jeddah

[JED]
Routes ready for dispatch

[1]
Drivers assigned

Fleet allocation

- Vans allocated to Jeddah operations
- Drivers paired with vans
- Fleet ready for day-one operations

Route readiness

- Delivery routes defined across Jeddah
- Route coverage and stop sequence reviewed
- Routes ready for dispatch

Driver workflow and dispatch

How a delivery day runs in Jeddah

الخزف السعودي
Saudi Ceramics

Step 1

Van check and load

Driver checks the van and loads orders

Step 2

Route assignment

Dispatch assigns each driver a route

Step 3

Delivery run

Driver follows the route and delivers

Step 4

Proof of delivery

Each delivery is confirmed and recorded

Step 5

Return and report

Driver returns and reports the day

DISPATCH COORDINATION

One dispatch point assigns routes and tracks every van

Drivers and dispatch share updates through the day

Issues are escalated and resolved the same day

Operational launch support

From setup to go-live

Workstream	Owner	Status
Fleet allocation	Bader Mokdad	In-Progress
Route readiness	Asim Bin Mahfooz	Completed
Driver workflow definition	Asim Bin Mahfooz	Completed
